

This email is in response to the registered letter received by me (David Church) from the chairperson of the BVWS Gregory Hewitt.

I note from the letter that I have been expelled from the society following a majority decision.

I formally notify the committee of the BVWS that this was an unlawful act.

There is much on the UK Government's various websites relating to this but for your guidance, I point out an excellent explanation here:-

What I want to redress this matter.

Reinstate me immediately, and I would like an apology and demand an Extraordinary General Meeting of the BVWS. I demand my right to address the membership with notes and evidence relating to this matter.

Yours sincerely

David Church
